

WESTERN PIPELINE ALLIANCE / WESTERN CORRIDOR ALLIANCE

PROJECT: BUNDAMBA & LOWOOD PUMPING STATIONS

LOCATION: BRISBANE, QLD

VALUE: \$3.7 MILLION

IN BRIEF

Commissioned by Western Pipeline Alliance in 2007 to undertake the installation of all structural, mechanical and piping items for the Bundamba and Lowood pumping stations, including testing and commissioning assistance. In 2008, performed the mechanical and piping installation at the Western Corridor Alliance Gibson Island MF & RO facilities.

CUSTOMER BENEFITS

Our ability to manage the projects and satisfy tight schedules including consultation with other major contractors was pivotal in securing the contract with the client.

We offered significant benefit to the client through our willingness to take a lead role in planning the work schedule and supporting a direct interface between project stakeholders.

TECHNICAL FEATURES:

- + Project Duration – 2007 – 2008
- + 30 Personnel
